Leaving

v-ing of leave

<partner>
to leave your wife, husband or partner permanently
離開

<after death>
to give something to somebody when you die
留下

Before you start, please prepare:

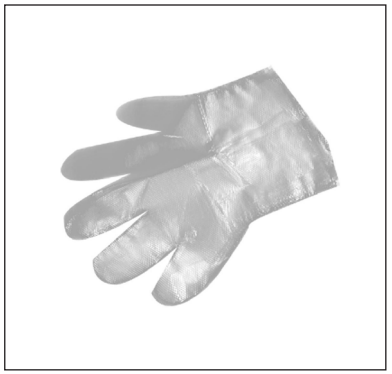
a mechanical pencil

alcoholic sanitizer

a pair of scissors

thermal paper, including fax paper/ receipt paper
(Please cut out the blank part of the receipt paper)

a plastic bag/ preservative paper
(or any material that is waterproof and transparent, larger than the receipt paper)



disposable gloves
(plastic/nitrile gloves)

1. Search for a peron who left us because of Covid-19
(you may go through the APPENDIX I (p. 06) and II (p. 08) or search keywords: Doctors died because of Covid-19)

2. Search for a figure, the number of death caused by Covid-19
(can be the figure in where you live/ a certain country/ global)

3. Wear the disposable gloves.

4. Scratch the name and the figure at the blank part of the receipt paper/ fax paper (thermal paper).
Notice: cut out the blank part and scratch on the front(glossy) side of the receipt paper. Suggested tool: the pen point of a mechanical pencil 自動鉛筆筆尖

5. Cut a transparent plastic bag into two pieces, put the receipt paper on one piece of plastic

6. Spread the alcoholic sanitizer all over another piece of plastic, press it onto the receipt paper and **watch closely at the mark that you left on the paper**.

Please wash your hands carefully after you finish this recipe, since the thermal paper is harmful to our health.

This recipe is intended to let the audience be aware that we have lost many lives, and are still losing lives because of the Covid-19.
Please wear the mask whenever you go out.
Please keep the social distance and wash your hands frequently.
Stay safe!

"Leaving"

Feb 1, 2020.
Li Wenliang, the man who alarmed the outbreak of pneumonia of unknown cause, was tested positive

He wrote that "finally tested positive" and this was his last post. There are more than one million comments under this post. People keep commenting and share their trivialities to Dr. Li.
